

## STATEMENT Non-Russian Origin Content

Spark Holland B.V. hereby declares that, based on verified supplier declarations and available material-origin documentation, none of the products supplied by Spark Holland contain raw materials, components, sub-assemblies, or substances originating from the Russian Federation.

This declaration is issued in alignment with applicable European Union sanctions regulations, including:

- Council Regulation (EU) No 833/2014, as amended, which establishes restrictive measures in view of Russia's actions destabilizing the situation in Ukraine, including prohibitions on the import, purchase, or transfer of specified goods originating in Russia or processed using Russian-origin inputs.
- The amended provisions referenced in Council Regulation (EU) 2023/1214, particularly Annex XVII, which reinforces restrictions on iron and steel products containing Russian-origin materials, even when processed in third countries. [asiflex.no]
- Additional import and export bans established under the EU sanctions framework, including restrictions on metals, raw materials, machinery, and other industrial goods originating from Russia.

In accordance with these regulations, Spark Holland actively requires its suppliers to ensure and document that materials delivered to Spark Holland do not fall under restricted categories listed in the above EU sanction measures.

Based on this supplier documentation and our internal due-diligence procedures, Spark Holland B.V. confirms that its products are free from Russian-origin content and comply with relevant EU trade and sanction regulations.

Signed for and on behalf of:

Emmen, The Netherlands, March 26, 2026
